

TECHNICAL SPESIFICATIONS

Material	<i>steel</i>
Treatment	<i>enameling according DIN4753 at 860 C</i>
Cathodic protection	<i>magnesium rod</i>
Heat exchanger	<i>enameled steel coil</i>
Maximum working pressure	<i>10 bar</i>
Maximum working pressure	<i>95°C</i>
Coil maximum working pressure	<i>16 bar</i>
Coil maximum working temperature	<i>130°C</i>
Insulation	<i>for the tanks from 160 to 300L, expanded P.U. 60mm thick and desnity of 52kg/m3. For the rest soft P.U. 100mm thick</i>
Cover	<i>soft PVC</i>
